

MERGE

MERGE Cube

Use the MERGE Cube to hold virtual objects in the palm of your hand. Use your smartphone or tablet to experience handheld augmented reality. Hold a galaxy, examine fossils and ancient artifacts like an archaeologist, watch as a volcano erupts before your eyes, and explore hundreds of STEM learning experiences.

Key Features

- ◆ Use your smartphone, tablet or Surface device to interact with virtual objects and education content in augmented reality (also works with MERGE Headset).
- ◆ Simply download and launch Cube apps, point your mobile device at the Cube, and watch the Cube transform.
- ◆ Access curated, kid-safe, apps at www.MINIVERSE.io or subscribe to our STEM learning platform for schools.
